PROFESSIONAL SUMMARY

Software Engineering student and Computer Technician. I have practical experience in **Mobile (Flutter/Android/Kotlin)** and **Web (React.js/Node.js)** development. Currently working as a development intern, I am seeking new opportunities (internship or full-time) to expand my expertise in software engineering and systems architecture.

TECHNICAL SKILLS

- **Programming Languages:** Kotlin, Java, JavaScript, Dart, HTML5, CSS3, Python.
 - **Frameworks & Libraries:** Flutter, React.js, Node.js.
 - **Database & Cloud:** MySQL, Firebase.
 - **Tools:** Git, GitHub, VS Code, Android Studio.
 - **Systems & Others:** Windows (Advanced), Linux (Intermediate), Hardware Maintenance.
-

PROFESSIONAL EXPERIENCE

Software Development Intern

Municipal Superintendence of Information Technology | May 2026 – Present

- Development and refactoring of user interfaces (UI/UX) for management systems, focusing on responsive design and layout optimization.
- Implementation of dynamic and complex logic in forms, such as conditional rendering of fields and business rules validation.

- Continuous improvement of information architecture and user experience by grouping data and adjusting navigation flows.

Web Developer (Freelance)

Data RO – Technology and Innovation | *Sep 2025 – Jan 2026*

- Development and maintenance of a tourism web portal.
 - Creation of an administrative dashboard for tourism data management and responsive interfaces.
 - Structuring of back-end functionalities and code optimization.
-

FEATURED PROJECTS

Ecoplaint Project (Scientific Initiation - IFRO)

- Participation in the development of a mobile application for reporting environmental crimes. Focused on front-end development and map feature integration.

Wlad's Shelter Platform (Web)

- Development of the official platform for animal adoption and shelter transparency.
 - Built with **React and TypeScript**, using Vite for build and CSS Modules, focusing on high performance and componentization.
-

EDUCATION

Bachelor of Software Engineering

UNINTER - International University Center | *In Progress (Started: 2025)*

- Focus: Programming, Algorithms, and Data Structures.

Computer Technician

IFRO - Federal Institute of Rondônia | *Completed in 2025*

- Core: Programming Logic, Computer Networks, and Databases.
-

COURSES & CERTIFICATIONS

- **Complete Android Development:** 107.5 hours – Focus on Kotlin, Java, Firebase, APIs, and UI/UX.
-

ADDITIONAL INFORMATION

- **Availability:** Full flexibility for travel and relocation (available for hybrid/on-site models).
- **Languages:** English (Basic/Technical), Spanish (Basic).
- **Driver's License:** Category A and B.
